Enter a code designating the main activity into the Aggregation Code box of each of the other activities to be included in the group. The Aggregation Code consists of a prefix ("R" if the main activity is on an Rent/Royalty or "K" if the main activity is a passthrough) followed by the activity number of the main activity.

Knowledge Base Solution - How do the aggregation codes ...

Question 1087849: The numbers 0 through 9 are used in code groups of four to identify an item of clothing. Code 1083 might identify a blue blouse, size medium. The code group 2031 might identify a pair of pants, size 18, and so on. Repetitions of numbers are not permitted, i.e., the same number cannot be used more than once in a total sequence.
